WHY XQUAKE (XQK)?

Cryptocurrencies, we believe, will eventually take over the world of finance. Modern financial systems will mostly employ cryptocurrency and tokens. Cryptocurrencies are more reliable and long-lasting than fiat currency.

XQuake (XQK) is a cryptocurrency that runs on the XRP Ledger (XRPL) and is noted for its high speed, cheap cost, scalability, and long-term viability. This enables developers and entrepreneurs in the payments, foreign exchange, and other industries to effortlessly modify existing applications and create whole new user experiences.

XQuake (XQK) is aiming to become the most widely accepted payment option in the global charity sector.

WHY ARE WE DOING THIS?

Thanks to the increased speed of XRPL, financial support may be given anywhere on Earth in seconds with XQuake (XQK). Because of the advancement of digital money, it is now possible to transfer digital tokens instead of cash to offer individuals immediate assistance when they are in need. Tokens are a widely accepted form of currency that can be used to pay for and receive goods and services. In a couple of seconds, XQuake (XQK) might be able to assist the government in assisting individuals.

This evolution may be slow, and we are at the beginning of it with the unique XQuake Token(XQK).
